ABOUT BREAKTHROUGH

Founded to help create a life free from mental illness.

Established 2018

Fully Independent

National focus with partners around Australia

“We will create a life free from mental illness by investing in ground-breaking research, connecting communities, and empowering people with education to create lasting change.”

Asking the questions: “What causes mental illness?” “How can we treat it?” “How can we act faster?” and “Ultimately, how can we prevent it from happening in the first place?”

WHY ARE WE HOSTING A MENTAL HEALTH DINNER?

43% OF ADULTS WILL EXPERIENCE A MENTAL ILLNESS IN THEIR LIFE

OVER 60% OF CURRENT CLINICAL MENTAL HEALTH INTERVENTIONS HAVE NO PROVEN EFFECTIVENESS.

9 LIVES LOST TO SUICIDE EVERY DAY IN AUSTRALIA

The Breakthrough Mental Health Dinner is a flagship event during International Mental Health Month, inspired by Breakthrough's renowned and sell-out annual Adelaide Men's Mental Health Dinner. It will unite business leaders, philanthropists, and change makers at the iconic MCG to turn the tide on mental ill-health.

Through powerful lived experience stories and interactive moments, guests will see how conversation, connection and community can create a ripple effect of change for men, their families and communities across Australia.

Every day, nine Australians die by suicide. Seven of them are men. Each life lost leaves behind a ripple of pain that touches an average of 134 people. That's families, friends, colleagues, teammates experiencing a devastating ripple effect. But what if we could create a different ripple? One conversation can create ripples of lasting change

YOUR FUNDRAISING TURNS POSSIBILITY INTO PROGRESS

Research. Proven programs. Earlier intervention.
Practical tools. Stronger communities. Lives change.

Every fundraiser creates a ripple. Every dollar helps move mental health research from an idea to an outcome people can see, share and feel. What ripple will your organisation create?

DBT EQUIPPING YOUNG PEOPLE WITH LIFE LONG COPING SKILLS

Fundraising helped establish a 24-week Dialectical Behaviour Therapy for Adolescents (DBT-A) program for young people experiencing severe emotional distress, self-harm or suicidal thoughts. Young people and their families learn practical skills to manage overwhelming emotions, cope with difficult situations and strengthen relationships. 75% of families complete the program, with participants reporting improved mental health, quality of life and family functioning. Its success has led to ongoing delivery through South Australia's public youth mental health service and a new graduate program.

PROFESSOR BRIDIANNE O'DEA

Fundraising helped establish Professor Bridianne O'Dea as the Little Heroes Professor in Child and Adolescent Mental Health at Flinders University. Her research uses digital technology to prevent, identify and treat mental health challenges in young people. By designing support that is engaging, effective and scalable, her work aims to reach young people earlier—wherever they live and whatever barriers they face. This investment is building long-term research capability and a healthier future for Australian children.

Together, we can fund the next breakthrough.

YOUR FUNDRAISING TURNS POSSIBILITY INTO PROGRESS

AHEAD OF THE GAME

Created by Movember with the AFL, this free program uses community sport to strengthen the mental fitness of players aged 12-18. Young people, parents, coaches and volunteers learn to recognise challenges, start supportive conversations, build resilience and seek help early, right where young people already feel they belong.

Breakthrough have delivered over 40 free Ahead of the Game sessions.

BIG TALKS FOR LITTLE PEOPLE

This early-intervention program, funded at Flinders University, gives primary school children the language and skills to understand emotions, build resilience and care for their mental health. Early trials recorded a 25% reduction in reported bullying. **Now used in nearly 300 schools, the program is expanding into regional communities, Indigenous settings and community sport. The program has now been adopted in China, Turkey and Greece.**

HOLLY'S SECRET GARDEN

In honour of his beloved wife, James Thredgold hosted the Holly Thredgold's garden fundraiser. This event funded a three-year perinatal mental health research position for Alexandra May at Flinders University. **The research delivered three papers and contributed to a new postnatal mental health assistance tool, creating practical support for parents and families.**

MEN'S MEALS & MENTAL HEALTH

Our 2024 and 2025 Men's Meals and Mental dinners at the Adelaide Oval, created safe spaces for men to connect, challenge stigma and learn practical help-seeking skills. Both sold out events, with over 600 attending, **funded a research position for Dr Ian Zajac, as Breakthrough Research Fellowship in Suicide Prevention at Flinders University, advancing new strategies to prevent male suicide. This was jointly funded with Prevention Health SA.**

THE IMPACT OF MENTAL HEALTH TRAINING

20 Mental Health Awareness Sessions

600 Participants Attended

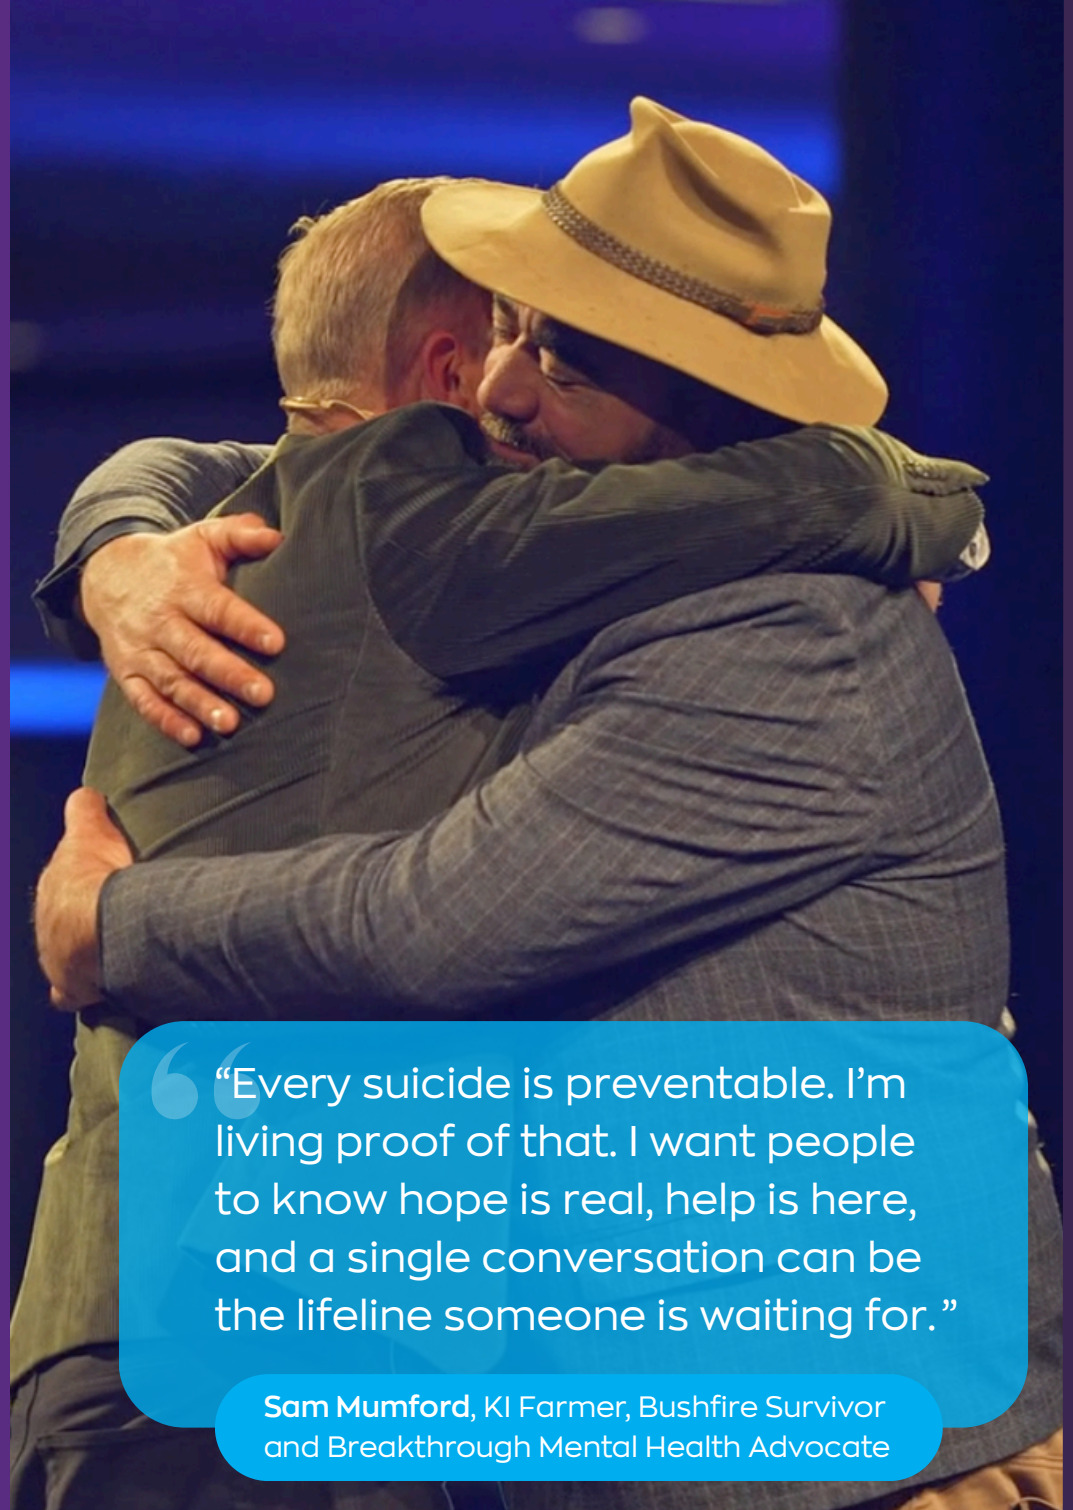

12 Community Mental Health Events

900 Participants Attended

50 Mental Health Sessions

710 Participants Attended

“Every suicide is preventable. I’m living proof of that. I want people to know hope is real, help is here, and a single conversation can be the lifeline someone is waiting for.”

Sam Mumford, KI Farmer, Bushfire Survivor and Breakthrough Mental Health Advocate

HOSTED BY HAMISH MCLACHLAN
BROADCASTER AND MENTAL HEALTH ADVOCATE

ABOUT THE EVENT

Friday 16th October
2026

MCG-Melbourne

400+ attendees

We're hosting the Breakthrough Mental Health Dinner at the iconic MCG to open up the conversation, build skills and connection, while raising vital funds to invest in research into suicide prevention and early intervention, turning awareness into tangible, lasting impact.

WATCH STEP-TO-THE-LINE VIDEO

HOW IT WILL WORK

Choose your level of sponsorship and receive a table(s) with 10 seats. You will be nominated as your table captain.

Fill your table. As a table captain, we ask you to start to normalise the mental health conversation and invite your 9 guests. Explain why this event is important to you, and why it's an important cause to support.

You can support us before and on the night through live auctions, donations, pledges and sponsorships. Please give generously and inspire guests to do the same. Before the event, reach out to friends, family, colleagues and your networks to spread the word and raise vital funds for mental health research.

Enjoy the night. Hear from incredible guest speakers, learn new skills, and participate in moving group activities. Once in a lifetime experiences and items will be up for grabs during the live auction.

Help us fund new ground-breaking research, with a fundraising goal of \$500,000, to invest in critical research projects that change the way we understand, prevent and treat mental illness.

PARTNER WITH US

Friday 16th October
2026

MCG; Melbourne

400+ attendees

We invite you to be a part of history as we raise vital funds to invest research and programs that support suicide prevention and early intervention. Turning intervention into tangible lasting impact.

Join us to be part of the solution, and in return you will receive fantastic exposure in the lead up to this event and directly in the room on the night.

This event will attract significant national media attention offering massive exposure for your brand. Don't miss out. Spaces are limited and selling fast.
